

Knowing more the range

ELECTRICAL MARKET

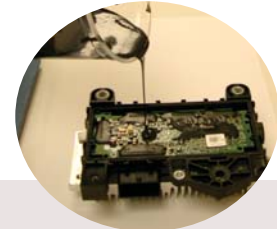

Polyurethane and epoxy systems

Raigi is an expert: **40 years of continuous development**

We can **meet every customer's individual needs**

Raigi works directly with the automotive suppliers

Worldwide, our products are used

Raigi's products properties

Temperature range:
-40 to +150 °C

Compatible with static / dynamic head

Our products' strengths

Can be used at low and high temperature

Wide range of epoxy and PU systems

Compatible with Reach & ROHS

Specifications

	Raw material	Color	Filler (Yes / No)	Shore hardness (25°C) (Sh)	Polymerization (°C)	HDT (°C)	Application
Raigithane 6479 / F	Bi component PU	Black	Yes	85 A	RT	< RT	Anti-interference
Raigithane 5569 / VX	Bi component PU	Black	Yes	65 A	RT	< RT	Components encapsulation for automotive
Raigithane 9429 / F	Bi component PU	Black	Yes	90 D	RT	75	Gas meter
Raigithane 5740 / VX	Bi component PU	Natural	No	65 A	RT	< RT	Hard environment: high resistance to hydrolysis and chemical products
Raigithane 7658 / F	Bi component PU	Black	Yes	85 A	RT	< RT	
Raigipox A 331-1	Mono component Epoxy	/	Yes	85 D	>80	95	Electronic components insulation
Raigipox T 502 / D482	Bi component Epoxy	/	Yes	80 D	RT	46	Electronic card insulation (Cold room)

About us

Set up in 1965, RAIGI was previously a Shell Chemical subsidiary. RAIGI became an independent family company in 1999. It is well known as polyurethane, epoxy and latex systems formulation as much as molding polyurethane parts and rotomolding technical plastics.

Our main markets are automotive, electronic, electrical, building trade and medical.

Raigi is expert in developing new systems from agrochemical raw materials (bio sourced polyols) and eco-friendly.

Our Strength

RAIGI has its own research & development team so we are able to develop formulations for new processes and new applications.

RAIGI is able to meet customer's needs

Innovative company in new energy

Development of hydrogen tank:

RAIGI has patented a rotomoulded liner in 2007

RAIGI has received an award from innovation world competition on July 2016

Did you know ?

headquarters "Vente-Privée" (Paris 2015)
concrete molding, RAIGI formulation

Daily, RAIGI connects you to the
electricity network

LPG Tank (since 1997)
Raigi, exclusive supplier

Worldwide, 1 car out of 2 gets some
RAIGI's products

Futuroscope - Poitiers (FR)
2 millions of people / year seat down on
RAIGI's seats

It is
not the end,
